WORK EXPERIENCE

React Native Developer Intern

TOLO (Tap On, Lift Off) | Remote | Feb 2023 - Present

- Collaborated closely with senior developers to troubleshoot issues and implement enhancements, demonstrating strong teamwork and problem-solving skills.
- Engaged in Agile development methodologies, participating in daily stand-ups and contributing to sprint planning sessions for efficient project management.
- Demonstrated proficiency in TypeScript, React Native, and mobile development principles, consistently delivering high-quality code that met project objectives and deadlines.

Lead Full Stack Developer

Flare | Richmond, VA | Feb 2023 - Present

- Led the development efforts as the lead Full Stack Developer for Flare, a cutting-edge dating platform catering specifically to the gamer demographic, utilizing React Native with Expo SDK for cross-platform compatibility.
- Implemented Supabase for BaaS functionalities, ensuring secure user data storage and efficient database management, while leveraging Zustand and TypeScript for state management and codebase scalability.
- Demonstrated expertise in Agile methodologies, conducting sprint planning sessions and daily stand-ups to facilitate effective project management and timely delivery of milestones.

EDUCATION

General Assembly

Software Engineering (SEI)

New York City, New York

2022 - 2023

WORK EXPERIENCE

Software Engineering Fellow

General Assembly | New York City, New York | Oct 2022 – Feb 2023

- Led the development of diverse full-stack web applications leveraging technologies such as Django, PostgreSQL, Express, MongoDB, and React, ensuring robust functionality and user engagement.
- Integrated various APIs including Stripe, Google Maps, REST Countries, and Spotify, enhancing application features and providing seamless user experiences.
- Enhanced teamwork and communication skills through collaborative group projects and pair programming exercises, fostering effective collaboration and presentation abilities.

Critical Space Monitor

CB Critical Systems | Ashland, VA | May 2019 – Aug 2022

- Oversaw critical space environments for diverse clientele, ensuring optimal functionality and uptime of data centers and server rooms.
- Swiftly addressed alarms and alerts, employing decisive action to troubleshoot and rectify issues, minimizing downtime and safeguarding client operations.
- Demonstrated strong autonomy and teamwork, adeptly managing concurrent tasks and priorities while maintaining a high standard of performance and client satisfaction.

System Administrator

Dot Com Technologies | Remote | Jan 2014 – May 2019

- Spearheaded comprehensive systems administration at Dot Com Technologies, overseeing server, network, and infrastructure management with a meticulous focus on software installation, performance optimization, and stringent data security protocols.
- Played a pivotal role in the seamless deployment of new servers, collaborating seamlessly with support teams to swiftly resolve customer concerns and uphold service excellence.
- Demonstrated mastery in Linux and Windows systems administration, leveraging advanced expertise to optimize system functionality and implement industry-leading security measures.
